

YOUTH CLUB

S.R. GOVT. COLLEGE, AMRITSAR

Youth club of our college is where young people can go to meet each other and take part in various leisure activities. to develop life skills, build self-esteem, develop self-confidence and resilience and counter negative emotions of stress, shame and fear. It provides opportunities for students to participate in activities, interact with peers in a supervised setting, and form relationships with each other. It helps some focus on a specific area, thus allowing members to develop their skills and interests in that area. Youth club not only helps widen contacts among young people but also helps to structure informal social relationships between young people.

Benefits include:

Increased competencies, self-esteem, skills and knowledge;
Enhanced individual development as it provides youth with opportunities to generate real community change;
Increased status and stature in the community;
Increased self-discipline and time management.

The beneficial outcomes to youth empowerment programs are improved social skills, improved behavior, increased academic achievement, increased self-esteem and increased self-efficacy. There are programs aimed at just empowering women and young girls.
